

101 FINANCIALTM

A Wealth Development Company

Car debt of \$6000 paid off in 1 month that would have taken 2 more years.

101 has brought us closer in our relationship and has changed our lives for the better.

– Daryl Asato and Lianne Ige (Oahu)

I Paid off \$15,000 in Credit Cards. I had 10 years left, but paid it off in 9 months.

101 FINANCIAL is the best!!

– David Miyasato (Kauai)

I Paid it Off

with
101 Financial

Welcome to 101 Financial. We have so much to information that we could share with you on things like debt, interest cost and how the banks work. But instead of you having to read another boring brochure on finances, we thought it would be best to let you hear from the people that matter most, our existing Clients. We hope that you will be inspired by this and know that at 101 ordinary people are achieving Financial Peace of Mind.

We also hope one day really, really soon you too will be able to join the thousands of 101 clients and be able to say: **“I Paid it Off!”**

*Alan Akina
President
101 Financial*

The burden of stress, worry, and bondage to our mortgage debt and a desire to handle our own finances wisely, 101 FINANCIAL has brought relief. My wife and I “no” longer fear the uncertainty tomorrow may bring and are hopeful to fulfilling our dreams for a second home and a comfortable retirement. Upon becoming members our mortgage loan stood at twenty-seven years. Through the i101 system we’ve paid off our mortgage loan in less than a year, broaden our financial knowledge, oneness in working our finances, invested in two properties, new friends, and working towards opening our second business. We have accomplished more in one year than we’ve ever imagined. We’ve stoked the impossible “is” possible! Thank You a thousand fold 101 Financial our hearts are forever grateful!

– Jeff and Lei Cabiles (Maui)

101 Financial has helped me gain the financial confidence that I have been awaiting for many years. Prior to joining 101, my credit score was really bad - in the mid 500's. I had credit card debt and a mortgage. I was living paycheck to paycheck prioritizing what bills needed to be paid. Getting bill collection calls, paying utilities when the suspension notices were sent, post dating checks to pay bills, told my son that I would buy him a car for transportation two years ago and couldn't, and so on. Banks and mortgages companies did not want to help me. Was told about 101 Financial by a very good friend who was a client of the company. I have been a client of 101 for 10 months. Big changes have occurred. Presently carrying a zero balance on my credit cards, bought a new car for my son for college transportation, bought myself a much needed new truck, and was able to put down \$5,000 to the principle of the mortgage. I pay my bills on time, no worries of post dating checks, and have my finances readily available for emergencies just in case it happens. Credit score is now close to 700. All this in 10 months of being in 101 and making less money prior to 101 and without changing my lifestyle. Financial Confidence has finally come. Thank you 101 for relieving me of all that financial stress.

- Lindsey Lewis (Kauai)

I paid off a car loan (18,000) & personal loans (5,800) in 9 months

- Sarah Kakugawa (Maui)

We paid off a \$210,000 mortgage, with 28 years remaining, and did it in 3 years and 8 month.

Before enrolling in the i101 system, every night I would sit at my desk and make a budget. I would see what creditor I could pay now and which I would have to wait on. We had several credit cards (thanks to me) and our mortgage. I would go to bed late and wake up early because of the stress.

Our 1st year on the i101 system, we were able to apply \$50K towards our mortgage and paid it on time. Our credit score is in the high 700's and we truly have financial peace of mind. We also are investing in several different real estate projects. We would never be able to do that without the guidance of our mentor. I want to Thank God for answering my prayers . . . and 101 Financial for teaching us a better way of banking for our future.

- Earl and Rochelle Inouye (Maui)

Paid off a \$1500 credit card and \$3000 towards our second credit card in the first month and half of being on the 101 System. Things continue to move forward as we get closer to being debt free. Conventionally we would have taken 5 1/2 years to pay it all off. We will be debt free within 1 yr and 8 months of starting the system.

- Wes & Roberta De Motta (Big Island)

We've been on the 101 Financial system for about 6 months. In the first 30 days of being on the program we paid off the balance of our car loan of about \$4,000. We paid it off a year ahead of time plus freed up \$350 a month to put toward other debt. We finally have hope that we no longer need to live paycheck to paycheck. Thank you, 101 Financial.

- Bob and Kathie Mundy (Maui)

We had a \$65,000 Second Mortgage that we paid off in 1 year. It would have taken us without 101 Financial's program: 7 years interest only with a 20 year amortization (That's a total of 27 years)

- Matt and Joanne Stevenson (Maui)

We paid off a \$160k mortgage, \$39k Ford F-350 loan and \$6k credit card in less than 1 year.

The 101 Financial System is a very quick way to pay your off your debts of any kind whether it be mortgage, car, personal loans or credit cards. The Wealth development program and help support is unrivaled, unmatched and unbeatable over any company similar to it.

- Moses and Virginia Timbal (Maui)
